

# MAPLE INFRASTRUCTURE

## Our Vision

To be the single-source partner for complex infrastructure projects, delivering superior quality and efficiency through our fully integrated, in-house trade divisions.

## Why Choose Integrated?

In today's fast-paced construction environment, relying on external subcontractors means sacrificing control over quality and schedule. Maple Infrastructure eliminates this risk.

**Seamless Coordination:** All sub-trades work under one system, eliminating scheduling conflicts and hand-off delays.

**Guaranteed Quality:** Every division adheres to Maple's rigorous standards, from the first measurement to the final pavement stripe.

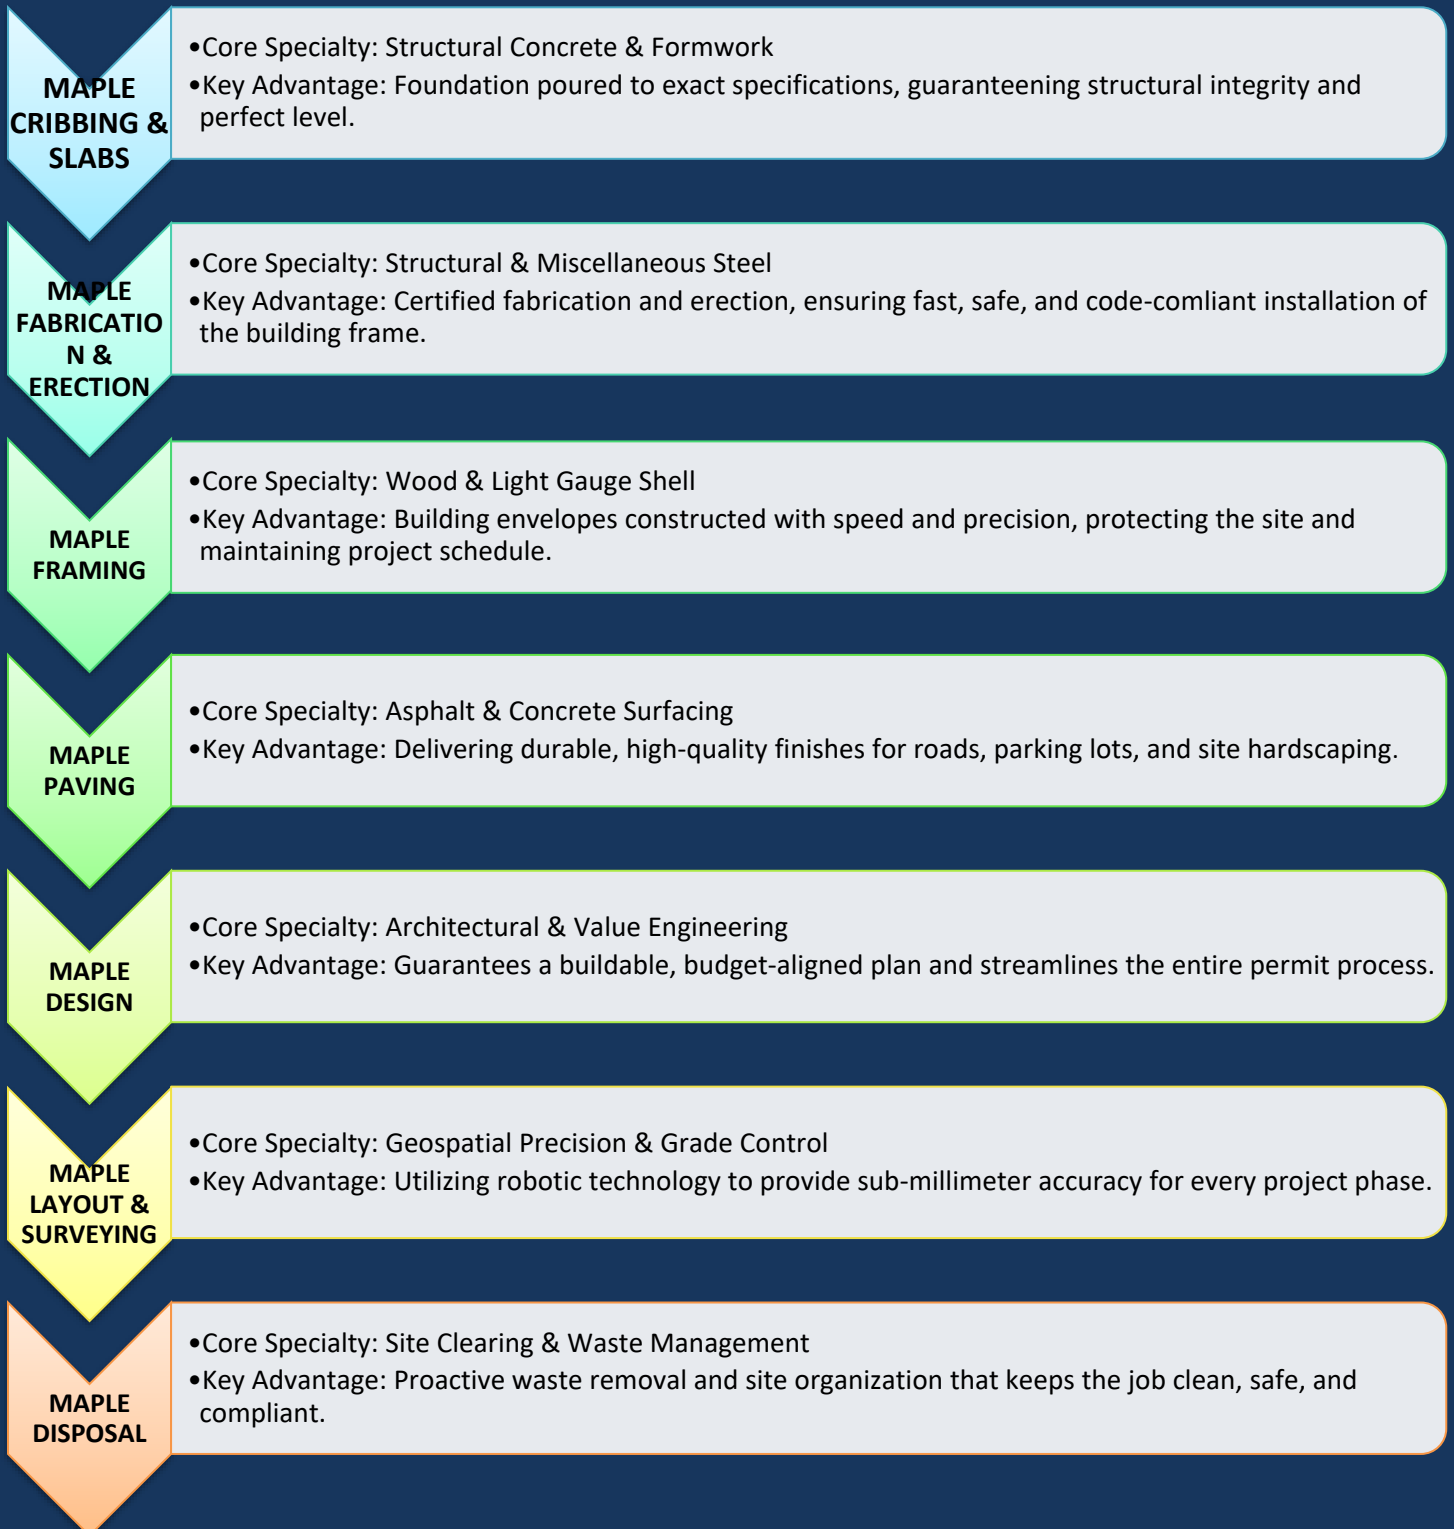

**Cost & Time Efficiency:** Our synergy reduces overhead, accelerates project timelines, and delivers better value to our clients.

# The Integrated Advantage

## THE POWER OF INTEGRATION

Six Specialized Trades. One Unified Standard.

## MAPLE CRIBBING & SLABS

Building the Foundation for Excellence

Recently completed commercial projects:

**LOCATION: 521 BAYFIELD RD., BERRIE**

**LOCATION: 1515 MAIN STREET E, MILTON**

**LOCATION: 12476 HIGHWAY 50, CALEDON**

**LOCATION: MACTON ESSO GAS STATION**

## MAPLE CRIBBING & SLABS

Building the Foundation for Excellence

Recently completed residential projects:

**LOCATION: 16162 HIGHWAY 50 RD.,  
BOLTON**

**LOCATION: 3300 15 SIDE RD., MILTON**

**LOCATION: 35 MCBAY RD., BRANT**

**LOCATION: 12 FITTONS RD., ORILLIA (43  
TOWNHOUSES CONSTRUCTION)**

## Core Services:

We specialize in all aspects of concrete flatwork and structural foundations, ensuring a perfectly square, level, and durable base for every project.

- **Foundation & Footings:** Accurate excavation, formwork, and pouring for load-bearing structures.
- **Structural Slabs:** Reinforced concrete slabs, including elevated, on-grade, and suspended decks.
- **Custom Formwork:** Utilizing the latest modular systems for complex pours and architectural finishes.

## The Maple Difference:

Our in-house concrete specialists manage every variable—from aggregate selection to curing process—to ensure the highest PSI strength and longevity. We deliver foundations that stand the test of time.

## MAPLE FABRICATION & ERECTION

The Strength Behind the Structure  
Recently completed projects:

**LOCATION: 2140 KAINS RD, LONDON**

**LOCATION: 633 GREEN HILL AVENUE,  
OSHAWA**

**LOCATION: 200 MONTCLAIR RD,  
WOODSTOCK**

**LOCATION: 110 TALBOT STREET W,  
AYLMER**

## Core Services:

Maple Steel provides full-cycle steel solutions, from detailing and fabrication to safe and rapid erection on-site.

- **Structural Erection:** Installation of main building frames, columns, and beams.
- **Miscellaneous Metals:** Fabricating and installing stairs, railings, mezzanines, and catwalks.
- **Reinforcement:** Working seamlessly with Maple Crabbing to install rebar cages for critical concrete elements.

## Quality & Safety

Our crew includes CWB-certified welders who adhere to the strictest safety and building codes. Integration with Maple Layout ensures every steel component is installed with sub-millimeter accuracy, eliminating costly on-site modifications.

# MAPLE FRAMING

Precision Shell Construction  
Recently completed projects:

**LOCATION: 8529 CASTLEDERG SIDE RD,  
CALEDON**

**LOCATION: 6842 SECOND LINE WEST,  
MISSISSAUGA**

**LOCATION: 16162 HIGHWAY 50 RD,  
BOLTON**

**LOCATION: 7590 OLDE TREMAINE RD,  
MILTON**

## Core Services

We build the structural shell of your project—fast, efficiently, and with uncompromising integrity.

- **Wood Framing:** Residential, commercial, and multi-family wood structure construction.
- **Light Gauge Steel:** Prefabricated and stick-built light gauge steel systems for commercial and specialized applications.
- **Roof and Floor Truss Systems:** Precise installation to maximize span, load capacity, and build speed.

# MAPLE PAVING

Durable Surfaces. Lasting Impressions.  
Recently completed projects.

**LOCATION: 10442 ISLINGTON AVE.,  
KLEINBURG**

**LOCATION: 99 HEIMAN STREET,  
KITCHENER**

**LOCATION: 1660 NORTH SERVICE,  
OAKVILLE**

**LOCATION: 6809 INVADER CRESCENT,  
MISSISSAUGA**

## Core Services:

The last impression is the most important. Maple Paving provides robust surfacing solutions that combine aesthetic appeal with extreme durability.

- **Asphalt Installation:** New roads, parking lots, and overlays with superior base preparation and compaction.
- **Concrete Hardscaping:** Sidewalks, curbs, gutters, and decorative stamped concrete.
- **Site Striping:** Crisp, compliant line painting and signage for traffic flow and ADA accessibility.
